Remarks

In the Office Action dated April 28, 2010, the Examiner ruled that restriction is required under 35 U.S.C 121 and 372.

By way of the present amendment, Applicant proposes canceling claims 10, 12 and 13, without prejudice or disclaimer, amending claims 4-9 and 11, and adding claims 14-16 to more appropriately define the invention. No new matter has been added by the way of the present amendment.

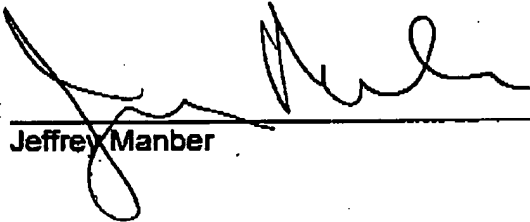

Applicant believes that the current amendment overcomes Examiner's objection and that Restriction is no longer necessary.

Please note that Inventor is now acting *pro se* in this matter, and would appreciate any suggestions.

In view of the foregoing amendments and remarks, Applicant respectfully requests the Examiner's reconsideration of this application, and the timely allowance of the pending claims. Applicant respectfully requests entry of the present amendment because the amendment places the application in immediate condition for allowance.
